一词多义

An engine has many parts, each **performing** a different function.

People expect a horse to **perform** like a car, with no thought for its feelings as a living being.

Granted that it is a simple test to **perform**, it should be easy to get results quickly.

理解翻译

These processes are essential for us to function properly.

By understanding sleep's importance, it's possible to let go of worrying about it, get into bed, and slowly fall asleep.

This marks the debut (首次登台) solo exhibition in Los Angeles for the highly recognized multitalented artist, musician, writer and actress.
